

2015 CQ WPX SSB Contest DX QRM

First Licensed March 27th 2013...**2E0IFC**. Really enjoyed the contest. See you all next year...**2E0SSX**. lots of qrm good contest...**2E0VRT**. TRIBANDER-SINGLE ELEMENT-LOW POWER-ASSISTED Band 14-21-28 QSO=680 FT 1000 PM Mark V Field 100 WAT Ant.DIPOLE 14-21-28 Mhz...**3Z6V**. Tnx for nice fun, Best 73 all. IC-745 100 watts, Antennas: Verticals...**4K6FO**. Operated only 12 hours had to rush to hospital with my 10 year old son. Propagation was great, great openings to NA 73s Amir 4X6TT...**4Z6T**. We did very well for our 2nd 5E5E effort. We had more then 8 band changes for few hours. This was due to operator inexperience. The M2 effort consisted of 4 stations. The main R1 and R2 stations had 15 different antennas. These 2 stations made ~5500 QSOs each. There were 2 in-band stations. They had antennas 300 meters from the main stations. Each of these stations made ~800 qsos each. Conditions were not very good on 10 meters on Sunday...**5E5E**. Great contest! My first one from the Carribean. Many thanks to 6Y4WJ and XYL for hosting me...**6Y4W**. I enjoyed the contest...**7K1SLV**. I enjoyed the contest...**7K3XGV**. I enjoyed the contest...**7L1AVS**. I enjoyed the contest...**7L4VYK**. I enjoyed the contest...**7M1VGP**. I was able to enjoy this contest. Tnx for a fine contest again. Rig: IC-7600, ANT: Dipole...**7N2UQC**. I enjoyed high band. However time was very limited for me...**7N4CPT**. I enjoyed the contest...**7N4GIB**. Elecraft K3 100w...**7S5S**. I enjoyed. Antennas: 3-ele Quad 7MHz Antennas: 4-ele Quad 14MHz 21MHz 28MHz...**8N3HC**. Had better propagation to EU than U.S. so missed high rate U.S. prefixes...**8P2K**. FIRST LICENSED 2012-11-06...**9A3BWW**. FIRST LICENCE 17-06-2014...**9A5RPZ**. Yaesu FT-450, OB11, inv. V for 160, vert Quad for 40 & vert Quad for 80...**9A9J**. 73 from Petar 9a9rr...**9A9RR**. I need a shorter call and a better antenna!...**9K2/VO1DZA**. 22/04/2013...**9M2FUL**. My Rig: Yaesu FT-1000MP and VL-1000 Quadra Linear @ 400 watts Antennas @ 27m (HF) 2-el Lightning Bolt Quad (LF) Butternut HF2V Many thanks to the organisers - 73 to all from Borneo...**9M6XRO**. RIG: Yaesu FT-897 100W ANT: Dipole Only for check log...**9V1XX**. RIG: Yaesu FT-897 100W ANT: Dipole ANT: Dipole...**9V50XX**. UPLOADING LOG SO OTHERS CAN CLAIM SCORES...**9W6ZUL**. I enjoyed the contest...**AHØYL**. THANKS FOR TURNING YOUR BEAMS MY WAY! FIRST LICENSED IN 2014. ICOM 746PRO, MFJ-949D, 80M DIPOLE @ 15 ft, 40M DELTA LOOP @ 40-ft., 20M DIPOLE AT 50 ft., IMAX 2000...**AL4Y**. PROPAGACION MUY RARA EN 15 / 20 METROS, HICE MENOS QSO-¥S DE LOS ESPERADOS ALLI. EL RESTO OK, FUE UN CONCURSO DIVERTIDO! GRACIAS A TODOS POR LOS CONTACTOS!! LU7EC...**AZ7E**. TNX FB 2015 CQ WPX CONTEST 73...**BA4SD**. check log...**BG4XNV**. The date of the first operation certificate: September 12, 2014...**BH4OUF**. 2014-09-22 ROOKIE...**BI4OJF**. 22/AUG/2014...**BU2CR**. 60W, yagi 3 element...**CE3TMM**. TNX to Eugene OH5DA for technical support...**CN2AA**. Concurso CQWPXSSB...**CO6YBC**. CQ-WPX SSB 2015...**CQ3L**. Hi guys. First day had a good open to USA. Second day propagation was so erratic and so strange that I work only 6 or 7 NA stations. Btw was a fantastic contest. Tks for all contacts we have made. On second day was very strange with a few strange CB guys trying to contact me with a strong signals and one EU CB station also making a tremendous qrm with a strong signal on my freq. Very hope to see all of you in next contest. 73 de Jose...**CT1AOZ**. Nice condx. On 10m!...**CT1IQI**. 73 CQWPX...**CT7ABD**. CQ WPX 2015...**CT7ABP**. Date first licensed: 13/12/2013...**DB5TPF**. Only 10m DARC L16...**DC1DB**. Nice contest, TNX and see u next year. Vy 73 de Manfred...**DC9ZP**. Equipment: Dipole, Elecraft K3, P3 & KPA500...**DD5FZ**. Rigs: three bands Optibeam vertical Delta Loops and vertical Quarter Waves for 40m / 80m. Icom Radios. Mni tnx to all of you who picked me up, Cu agn...**DF2F**. Station: Kenwood TS-590SG and V-dipole 6 m up, 2x13 m with antenna coupler...**DF5TR**. Thank you every one for calling me. Had a nice time on air again. Good propagation to North America on 20m as well as to Asia. See you again next year, 73s...**DG2BHB**. ONLY PART TIME ACTIVITY, DUE 2 QRL!...**DG3FK**. Is a very nice Contest, thanks to all if have a QSO with me and i hope to see you all in the next year in the WPX Contest vy 73 de Geri...**DG5MLA**. Thanks to Mirko, DJ1AA for the support to create a Cabrillo format from the adif file. 73 Klaus...**DG5OBB**. SOAB SSB LP...**DH7FA**. My new own record breaking the 5 Million point border. TNX 2,222 QSOs. 73 Mirko...**DJ1AA**. QRP 5 Watt

from FT817 via tuner to off-center-fed dipole on 7 MHz and 14 MHz. 21 and 28 MHz to 2 Element-3 Band Mini-Yagi MFB23...**DJ3GE**. Bad condx to USA on Sunday. No fun...**DJ3HW**. KX3 @ 10 watt with indoor wire antenna...**DJ4CW**. This was big fun again, my best result with 1 TRX in years. It is not possible to beat the SO2R guys so i have to live with that. Higher Band were rapidly changing, with beam to South America i worked whole world on 10m. 15m was really nice open until almost 2200Z on Sunday, just missed the "American GIRL" AG1RL on 15m :- (Nice to work so many friends from U.S. on 15 and 20m, i even saw the ARRL president visit me on the air :-)...**DJ5AN**. Sorry but SSB is not my Mode...**DJ6TK**. Yaesu FT-1000mp; PA 400 Watt; LW, FD4, FB-DX-506...**DK2AT**. TRX elecraft K3, 10 Watts ANT Hexbeam...**DK6NF**. Hope to cu next year! tnx 73...**DL1HBD**. FT2000 + Acom1000, Ultrabeam UB50 (10m-40m), Dipol (80m)...**DL1NEO**. It was again a very interesting contest, I did not think I could be so much DX, Rig FT840, HLA300 (250W Power, 10m 120W Power) antenna ONLY 20m LW CU 2016...**DL2AMM**. More Testing as Contesting New TRX & Antenna...**DL2R**. RX=IC7400, TX=IC7400, Antenne: 3Element Beam FB33 von Fritzel, W3-2000 von Fritzel, Leistung: 100 Watt...**DL4EBA**. Drake TR7 & YAESU FL-2100Z...**DL4FAP**. Worked from my garden house just for fun...**DL4JWU**. Yaesu FT-450 SteppIR Loop 168 Meter Umfang FC-102...**DL4ZA**. FT-817, 5 W, vert. dipole...**DL5EC**. Yaesu FT-100 D 100 W! 11 EL WIRE-LOG-PER. (7Mhz-30 Mhz) 28 Meter high !...**DL5RU**. short Test on 10m...**DL6MFK**. Just part time because my YXL used the station...**DL6MHW**. Excellent Contest, excellent operators, many prefixes and some new countries worked. I hope to have HP next year. Thanks for organizing it; the best wishes from Barcelona to everybody de Juanjo...**EB3WH**. Transceiver: Yaesu FT-817ND Power: 5 W Antenna: Sloped wire dipole (home made) Coaxial cable: RG-58 (5 m aprox.) Height: about 650 m (above sea level), about 24 m (above ground level: 3 m above 7th roof level)...**EC4AA**. First CQ WPX, 73! QSO: 14245 PH 2015-03-29 2349 ED3T 59 403 PY2NY 59 943 0...**ED3T**. Troubles, wrong strategy...**EF8S**. Very very difficult weather conditions, the second HF antenna (SO2R). The Spiderbeam was broken before dawn, Fortunately the SWR was not so bad and I was still able to use it. Wind above 50Kph and gust up to 80 Kph during 10 hours. I suffered from the noise and the caravan moved like a boat on the sea. Good propagations conditions to NA on Saturday Poor conditions to NA but very very strong signals to SA on Sunday. See you next year !! 73 de ON4EI...**E11A**. 15 was a bloodbath, 10 should be picked up for questioning!...**E14GNB**. WPX is always a fun event as strategy is to keep the rate as high as possible. The station has

worked well for us this season, other than some issues with rotator indication, we have had no hardware problems. This really helps in M/S - as the competition is so intense that you do need everything to go right. As with ARRL SSB, we had some high winds forecast and this impacts our 40m performance as we can't extend this tower to full height. Band conditions were good on Saturday but very poor on Sunday with some stations completely in the noise - thanks for the patience guys. Congrats to TM6M, E7DX, IR4M and others - we too enjoy live scores and hope this will become ubiquitous. John...**E17M**. KENWOOD TS-440S DELTA-80 H-23metr DELTA-160 H-23metr...**EK6SI**. FT-857d, ant LW 84m...**ER1CS**. ICOM 706 100W ANT 2EL QQ,IV DIPOL...**ER5DX**. Rig Yaesu FT-897D, ANT EZ-Wire, PWR 100 W...**ES5TF**. Licensed 2014...**EU1ACX**. Icom IC-706MK2G...**EU2MM**. TRX - 30W, ANT - VERTICAL IT'S MY FIRST EXPERIENCE OF CQ WPX SSB CONTEST ;-)...**EU2TT**. Rig - FT-840, pwr=100W, ant - Delta Loop 168m. 73 and CU next year...**EU6AA**. Used FT-897d 5 watts+TM535 tuner+V beams...**EU6DX**. 08.02.2013...**EW1TO**. First license in 01.08.2013...**EW4FG**. Tnx fer contest!...**EW4WE**. TNX FOR CONTEST...**EW7BR**. 73...**EW8DX**. ic-746...**EX8BN**. WX VERY BAD WIND 110KMH ANTENNA 6M OVER THE GROUND...**F1MLN**. I must stop early, we had a storm and I must to get down my antennas...**F5ZK**. For the first time with SSB. The goal was to know how it was. And it was great. I will be back hoping best propagation on Sunday. Tks for calls. 73 from John-Paul...**F6FYA**. Had a great time SD Logger used No prblem...**GØPFU**. First time entrant, enjoyed the time in front of the rig and working some distant stations and countries for the first time...**GØRXA**. The Cricket World Cup Final took my time over the weekend!...**G3YRZ**. Just a checklog for first contest entry...**G3YZO**. Antenna 6m at mid-point 0.8m ASL ZL11 Pro ATU Logging Program SD...**G4HSU**. RIG- FT1000MP MkV Field. Antenna 120 ft LW Endfed. at 30ft agl...**G4OTU**. Another enjoyable contest, looking forward to next year already...**G5N**. MY SECOND PARTICIPATION IN THIS CONTEST. I ENJOYED THE CONTACTS I MADE. I HOPE THAT I HELPED SOME STATIONS SCORE A FEW POINTS...**G7NRH**. Strong winds stopped a concerted effort, went from a 3-ele mono band beam at 55ft to a GP 1/4 wave vertical with 2 radials. Gave away a few points this year, till next year...**G7Y**. Good contest serch 'n pounce, highest QSO total may have messed up bands QSOS sent 261 to 265 might have been 14Mhz sorry...**G8ZRE**. Planned just 1,000 Qs here, so at 1,010 in the log it was time to call it a day. Strong winds meant the tower had to be kept at just 20 feet, so fortunate a competitive entry wasn't planned. Still, even at 20 feet the location here plays pretty well to the West...**GW4BLE**. Great Conditions Elecraft KX3 and Folding HexBeam Strong Wind Sunday afternoon stopped play...**GX5XV**. A single dipole for 40 m was used on 15 m...**HAØHW**. IC-756 PRO III, inv. V...**HA5NB**. ICOM 756 pro 100w 3-ele yagi GP-s, dipoles...**HA6NL**. Elecraft K3 100 Watts Force 12 C-4s = 2 elements on 28/21/14 MHz and Dipole on 7 MHz Inverted L for 3,5 and 1,8 MHz...**HB9AA**. Just for a bit of fun this time...**HB9CA**. I HAVE HAD FUN AND I WILL TRY AGAIN NEXT TIME. THANK TIO ALL PARTICIPANTS...**HB9FBP**. ROOKIE, First licensed 24.10.2015...**HB9FLX**. RIG: ICOM IC-7200; 100 W; Antennas: 2 Element SteppIR resp. 40/80 m Trap Dipol; both antennas 12 m over ground. Conditions where good but difficult due to sun noise. Tnx to all staff behind and to all participants. Again, it was a nice contest with a lot of new contacts. Hope to cu next year, 73 de Rudolf...**HB9MXY**. Category: TB Wire...**HB9WDY**. 21-01-2013...**HF6T**. Thank you for the contest...**HK4CMB**. Thanks for contest...**HK4DLO**. Contest was great had to stop on second day lost my voice...**HSØZHC**. Only about 10 hrs QRV. With max 100W only sometimes hard. Antenna only GP abt 9m, strong local QRN Worked 15/10m only. Anyway I had fun - tnx to all...**HSØZLS**. Enjoyed the contest. Propagation on 10M was good on Saturday but not as good on the Sunday. Thanks for the contacts and to CQ for sponsoring...**HZ1PS**. As usual, no time for this contest. 73. Bob...**I2WIJ**. My radio: converted CB 5W out, my antenna: 4 el. Yagi 20m in height. The merit of this log is certainly the excellent propagation but it was important to meet highly efficient stations run by operators really available...**I5KAP**. Only few hours for this year, I hope better next time...**I8KRC**. Licensed since January 29 2013...**I5E**. CQ-WPX-SSB...**IKØUXO**. I like the WPX and this year I enjoyed it very much. 73 to all John...**IK1BBC**. Very good propagation the night of march 29 for USA. Short but beautiful skip the afternoon of march 30 for Center Europe...**IK1HZZ**. CHECKLOG...**IK1YDB**. KENWOOD TS940S Rigexpert ST MixW 3.1 ANT. Vertical ECO 7+ ; Trap dipole for 4080...**IK2AUK**. Buon divertimento anche se con una verticale bisogna accontentarsi...**IK3SSW**. TNX for nice contest!...**IK4JQQ**. HY GAIN EXPLORER 14...**IK5ZUB**. SW QARTEST (TNX PAOLO IK3QAR)...**IK7NXU**. VERY LOT OF FUN THANKS 73 de ALEX...**IN3BYZ**. Beautiful i completed DXCC award

338 dxcc my tank my new record...**IN3UFW**. I USUALLY OPERATE ON QRP CW. I DECIDED TO PLAY ON SSB WITH MY YAESU FT 817 A ONLY 5 WATTS. I ENJOYED MYSELF VERY MUCH. SEE YOU NEXT TIME VY 73 ALEX...**IN3YKS**. Started as a limited time effort, then on Sunday motivation increased and decided to put some more hours in it :) Had a great time, thanks everybody!! Ciao de Fabio IZ4AFW/IO4W/NZ1W...**IO4W**. TS-2000 95 W ANT. VERTICAL AND DIPOLE...**IQ2CU**. Rig: TS-590SG, ant 3-ele Ultrabeam Yagi. A limited time participation. See you again soon. 73 Sergio IR4B (IK4AUY)...**IR4B**. ik4zh...**IR4E**. Bel Contest, grande divertimento.Al prossimo anno.I6IQU...**IR6D**. TNX TO ALL NICE CONTEST!...**IR9W**. Total activity 12 hours. Contest with minimal equipment YAESU 897 - Only a dipole for 10-15-20 meters available. Very happy with the result...**IR9Z**. License september 2012...**ISØDCR**. No good condition on 10 mt band! Last year was better! But it is always a good fun! Saturday I made few contact to North America and Sunday no one and much South America station with big signal, crazy propagation! It is not possible to me make a runner so I worked by my vfo continually and some time calling but with inadequate answer. My setup : Ft 920 AL 811 hxce 300 w (1 tube is expired one day before the contest!) Fishing Rod Wire Yagi Antenna (8-2) 5 el per 10 mt e 3 el per 15 mt at 10 mt from the ground, rectangular loop at 6 mt, 5/8 vertical antenna. All antenna are homemade. Qartest...**IT9DFI**. Rookie...**IT9DGG**. IT9FRX ALEX WPX LOW POWER SINGLE OPERATOR (ROCKY)...**IT9FRX**. Only few hours , qrp portable...**IT9IGN**. Operated all the time from my sailboat. because of my "antenna" (a simple 10 meter wire) i could trasmit only on 40, 20, and 15 meter band. Photos of my "maritime qth" on QRZ.com...**IT9PZM**. Bella propagazione, come al solito con i 100 w del KENWOOD 870 e dipolo rotativo COMET H422 contento di aver collegato country difficili...**IT9STG**. FT 2000, FT 920 SPIDERBEAM 10-15-20 TH3MK4 12AWQ 2-ELEMENT PHASED VERTICAL ARRAY 40m DIPOLE 80m LOOP MAGNETIC 160m BEVERAGE 160m...**IT9YAO**. my first license january 2014...**IU3BPW**. 07/01/2014...**IU5BKR**. Thanks for great contest...**KH6QJ**. THANKS TO ALEX, KH6YY, FOR LETTING US USE HIS FINE STATION. WE PROBABLY SHOULD HAVE DONE MORE ON THE LOWBANDS. IT MAY HAVE ALLOWED TO BREAK THE OCEANIA RECORD. NEXT TIME. NOTICED A LOT OF BAD SPOTS TOWARDS THE END OF THE CONTEST. LOTS OF PEOPLE CALLED BEFORE VERIFYING THE CALL SIGN RESULTING A SLEW OF - WE WORKED BEFORE FROM THE STATION. HEY, PEOPLE WERE DESPERATE FOR CONTACTS (US TOO). THANK YOU TO ALL FOR ALL THE QSO'S. WE HAD A GREAT TIME...**KH7XX**. Not bad conditions at the start, but they deteriorated over the contest. Had a good time and got several new prefixes. KL2 must be a fairly rare mult on HF, as many operators were extremely patient with my signal. Special thanks to E2X, OL9A and ED1R who were working pileups but took time to work me. Normally I have to wait for a gap in the pileup. Sunday was extremely noisy across the bands. After the static started to die off on Sunday about 1930 I could hear all of Europe, but they could not hear me until 2030 at least. Even in the Pacific I think my call was recorded as IK2ZZ once. I felt that I was working the limits of my compromise antenna for the duration of the contest. That antenna will be replaced soon!...**KL2ZZ**. Had fun in the contest...**KL7DG**. Father and Son team...**KP2DX**. QTH Humacao on hillside - clear to EU, blocked to U.S. Simple wire antenna. On vacation, had fun!...**KP3/K1ZZ**. High power-All band-Singel op...**LA5PRA**. SENT TWICE BEFORE ON APRIL 4 AND 5TH, AND AGAIN VIA N4TZ...**LA6CF**. Popping by the club station to pick up QSL cards on a Saturday afternoon, I found 10-15 meter boiling. Despite other commitments I could not resist, and spent almost three hours for one ATNO and several band-entities and new prefixes. Real good fun!...**LA6VQ**. Quite good conditions, lot of fun!! :-)...**LA8OKA**. The beam antenna on my remote station were taken by a storm just before the start of the WPX Contest, just as happened last winter. Should I quit HAM-radio and rather start with storm chasing? Well, my 40-80 meter dipole worked OK at 15 meters, so I got some QSOs...**LA9GY**. 78 minutes of operation on 160 with my poor longwire and 100 watts. Happy to catch some new prefixes, testing out my antenna under high local noise level and last, but not least, taste the contest mood...**LA9RY**. Licenced April 2014...**LB5BG**. First licensed 25 November 2014 For the first time tried to take part in the contest mostly to add some new DX to my log and it turned to be really cool experience...**LB8CG**. Operators: LU3DW, LU3CW, LU5DQ, LU5AB, LU6EVD, LW1EUD, LW4DAF, LW3DG...**LQ4D**. SOUTH ALSO EXIST...**LU3HFA**. Rig: IC-7000 100 W Ant: OB16-3...**LZ2JA**. IC-7000, WINDOM, N1MM...**LZ7W**. Station: Kenwood TS-940SAT, 100W RF output, Antennas: 50ft Wire Vertical + 50 radials (80m/160m), Antennas: 3-Band Trapped Vertical (10m/15m/20m) Antennas: 2-ele Wire Cubical Quad (10m) fixed direction to South America. Antennas: W3DZZ Doublet fed with 450 ohm ladderline aligned S/W - N/E (All bands). This was the first time I was QRV in this contest My QTH has a small garden a suburban area so my antenna and ground system was compromised but it worked well enough. Operated 36 hours in total in 2 x sessions. Used the contest to test recently constructed 2-ele Quad for 10m...**M0BTZ**. Great activity, but HF band conditions clearly seemed better later into the day with good openings to SA. 40m its usual bottomless pit with excellent signals from some DX stations. Entered the 'High power' section this year as now running 200w...**M0MCV**. First Licensed 10 Dec 2013...**M0OSA**. First Licensed 6th November 2012 (06/11/2012)...**M0PMV**. Picked single band again this year and with some regret. Band conditions werent fantastic, I was about 40 QSO's down on last year but with an extra 4 hours on the radio. Enjoyable contest all the same, maybe 15m single band next year...**M0RNR**. Lost the antenna in high winds not able to continue...**M3PSK**. WX conditions meant we had to take down a 4-ele for 10m on 1st day so we "lost" a band and about 2 hours operating time. Strange conditions on 15m on 2nd day until late afternoon, hearing some good

DX but they couldn't hear us and we could only work a few local EU's. 20m "saved the day" until 15m started to work again for us at around 18:00 utc. Still enjoyed the contest in spite of everything. As usual SD was excellent for logging...**M4D**. K3 w/DVK, 5 meter wire with ATU (LDG), Kos headset, Win-Test 4.16 I was surprised to get a comment on the air, "You are a CW operator, aren't you?" 73! Kazu MØCFW, M5Z, JK3GAD...**M5Z**. Rookie, licence date 07/2/15...**M6SNS**. Started on 40m, real bad QRM to hear anyone due to the activity. Later had problems on HF with amplifier fault, that forced us to QRT. Not our finest hour. Hoping for better luck in CW event...**MD4K**. SOSB QRP ROOKIE...**MIØLLG**. Just dabbling in the contest, getting new DXCC's. Running 400W from Ameritron AL-811HXCE amplifier...**MMØIMC**. Ant: Rotary dipole running station did not work in Phone Great activity from South America! Not many U.S. stations this year...**PG2AA**. Fantastic conditions on 10m on Saturday. Not as good on Sunday but instead 15m was almost as good. The first contest in which I have made well over 5,000 QSOs single op. NOTE TO ADJUDICATORS: My computer clock was going crazy: It gained up to five minutes at a time, so I had to re-set it to the correct time several times during the contest. At one point it also went BACK about 5 minutes, so some QSOs with higher serial numbers are shown with earlier times. Apologies if some QSO times do not match, but I don't think any QSOs are more than 5 minutes out. This has never happened to me before: I will use a new computer for the next contest! Note I have amended some of the times in the Cabrillo log manually: This is NOT "rubber-clocking," it is an attempt to give more accurate QSO timings than the log would otherwise show!...**PJ4DX**. Sorry, just a few hours for the contest, due to family committments...**PS2T**. Many familial activities during the weekend, reason I couldn't dedicate too much time, but I've had a lot of fun! First time participating in a contest from my apartment in Sao Jose dos Campos. First QRP contest, sometimes its frustrating, but each QSO is a win. This is the 1st time one of the oldest ham clubs in SP, took part in this contest. We wanted to take part in this contest even though due to our other duties we were not able to be active over the whole period. We were working from SQ5EBM's radio shack. Other ham radio friends paid us a visit. SQ5JOU, SP5EIG, SO5GT were present. Propagation was not in our favor. Practically no signals from the Pacific area. Only one VK. JAs were unusually weak. Almost no U.S. stations copied while they should be blowing out speakers. We made least QSOs on 40m due to lack of time/crew.It was great fun and an opportunity for less experienced operators to practice in an international contest. It's fun to hear: Is VC2P your callsign. I was the only VC2, this call was use for the first time...**VC2P**. The 10 minute rule was better for M/S than the 10 band changes...**VC6K**. Came close to our record, very close, but conditions to Europe down from last year...**VC7GL**. We had fun working all those prefixes for our second attempt at Multi-two. We increased our score, qso's and multipliers. Thanks to all that worked us and hope to see you in the next one. 73 Rick VE3BK...**VE3BK**. Did not find it in me to seriously dive into the contest. QRP is still very new for me and sometimes can be fun, even though most of the time it is pure frustration. Stuck to 40 m where my antenna works best...**VE3BR**. Limited Time But Gud DX...**VE3JSQ**. Great contest! Always a lot of fun!...**VE3ZZ**. December 12, 2013...**VE4DPR**. I had a lot of fun participating in this contest, it was a wet blustry weekend so the contest passed the time. I gave a recently vintage FT-757GX and Classic IC-751A a good workout. Both great old radios...**VE7BGP**. I noticed the accuracy in this contest - every one was trying hard to get the numbers correct, which was excellent. Another Great CQ-WPX-SSB Contest. I'll be back...**VK2LEE**. Loved giving out numbers and getting a lot of new band fills...**VK3MSD**. Graham, VK3DOG and myself Tony, VK3TZ travelled 250 km to near the summit of Mt Stirling at 1700 m ASL and stayed in an alpine cabin, operating from a generator with an FT-2000 and an SPE Amp. Antennas were a TH3 antenna and a 40m Ripplettech Rotary dipole and a 40/80m elevated vertical. On set up day, there was snow, some sleet and below zero. The wind was low fortunately. It took us the whole day to set up and a whole day to tear down. The noise floor was very low, negligible and the hut had a nice wood fired heater. The first 4 hours were very good and we looked like hitting or getting close to our targets, but after the small flare, things became exceptionally difficult. We were virtually unable to raise a pile-up despite the amplifier and situation looking out at an excellent horizon from SE to SW. We were disappointed with our score after many hours of preparation, but it seems the solar conditions were not good enough to provide a decent score from Oceania. This contest certainly showed that beams are seldom, if ever pointed to OCEANIA. We lost count of the number of times we were first logged as K3TZ. Most frustrating. I am sure my accent does not sound like I am from Pennsylvania. A decade ago we could rely on many JA QSOs, just point the beam North and call CQ - a pile-up ensued. No longer. Nowadays every QSO from OC is tough, nobody points this way or even considers OC. We had a great weekend but the current rules and operating conditions no longer make contesting from OC so much fun. There is not enough incentive to work real DX, not just a single hop QSO across an intercontinental border. We were told that we were 20dB over S9, by someone beaming to OC, but could not generate a run on a clear frequency? I'm not sure we could have done anything more to have a big signal from VK. Perhaps it was just a bad weekend for propagation, but

somehow I think contesting from VK is not going to improve until there are some changes. The EU and NA QRM is simply too high to permit us to compete...**VK3TZ**. 2 element yagi at 11m. Band condx not as good as a few months ago. Thanks see you next year with 400w...**VK4CL**. Operating on 10 Watts (Foundation class licence)...**VK4FPDG**. Station: Icom IC-7400, Kenwood AT-230 Tuner, Bushcom stainless inverted dipole...**VK4HEC**. I was able to operate in the local park for a couple of hours using a buddipole. Battery powered, head-set on, few curious onlookers. Had a ball. Lots of stations around!...**VK6FLAB**. Very good fun working mobile with 100W and a multiband whip on the car. CQWW Contests Rock...**VK6SMK**. Most effort was for VK6NC. Spent a little time on a second rig making a few calls. Mainly 40m to boost my chances of making DXCC on that band...**VK6WX**. DIFFICULTY PROPAGATION CONDITIONS EXPERIENCED. MANY OF THE REGULAR BIG GUNS NOT HEARD THIS YEAR. TESTIMONY OF BAND CONDITIONS. LIMITED HOURS OF OPERATION DUE TO FAMILY COMMITMENTS. HOPE BETTER SITUATION NEXT YEAR...**VU2MUD**. License Issued for the first time on 2014-05-05 License No. 37196 VU3BTZ...**VU3BTZ**. I had Great Fun in the Contest...**VU3DMP**. My second WPX contest from NA-008. This year had only a brief opening on 15m and nothing on 10m. The night is largely gone, so 40m was never in play. The propagation gods did not smile upon me, and by late Saturday afternoon I had to admit my goal of besting last years 555 qsos recorded was not going to be achieved. So, I decided to make as many people happy as I could by giving them the unexpected VYØ mult. I was only able to call CQ successfully for short periods before getting muscled out. Well, if you are going to contest with low power and simple antennas, then the high bands must be in play for you to be successful. Lessons learned for ops at 80N; 1) Plan your contest 2) throw away the plan. Thanks to all who worked to pull me out of the noise!...**VYØ/VE3KTB**. Offtimes: 1)0600-0930 2)0140-0400 3)0630-1030 4)2150-2400 = 12 Hrs...**VY2ZM**. 02 JULY 2012...**WH6DZX**. Many LOUD EU had bad audio. A Belgian station had a bad attitude too...**WP2Z**. Contest Call WP4X...**WP4X**. Because I had to leave. I don't have too much time on contest...**XE1AY**. Despite lousy conditions on the 2nd day, managed to ge the best score ever on this test!...**XE2B**. I wish partipate longer, happy to work the contest...**XE3DX**. Irregular propagation with some surprises as HVØ station and some African stations calling me. Saturday with nice propagation some hours but sunday closed in the morning, only some qso's. Glad to hear many friends very actives, congratulations to all participants and we see you at next contest, 73's...**XE3N**. FT-817ND 5W, MOBILE WHIP...**YBØANN**. FT-902dm with g5rv...**YB2EMK**. 2015 CQ WPX SSB Contest USA QRM

Just couldn't bust some pileups, even with 500w. Lost my motivation early...**AB3TM**. 14/06/2014...**AB4VT**. Another fun contest on the 1,300 ft loop at KB8O. Saturday condx were nice and we had a pleasant surprise with 10m being open at 2100 ET. Sunday, on the other hand, was a brutal grind. The loop continues to impress, especially on the low bands and it shows in all of those 40m Q's. Thanks to everyone that we got in the log book this time and everyone with the patience to work through poor conditions and the constant request of "Again? Again?" See you all (and more!) in the logs next year. 73 de KB8O & AB8M...**AB8M**. License Grant: 11/12/2014...**AC2PB**. Once again, TeamK4VV mounted a Totally Remote, Multi-Multi effort for this contest. No one operated from the K4VV shack during the contest. We used the three fully-remote-capable positions at K4VV. Two big, intermittent obstacles popped up. The Green Heron control box for the big 20M stack refused to work about midday on Sunday. And, at about the same time a power line insulator on a pole directly in our path to Europe decided to start barking. However, we worked around those problems. By the WPX CW weekend, we will have those problems addressed. The fine team at beat us by 11K points, taking full advantage of their greater number of operating positions, closer proximity to EU and better low-band receiving antennas than we have. We all are thrilled to see our PVRC sister station, WX3B's spectacular attainment of 25.613 million points. Jim's group will, doubtless, be the top USA entry. Many thanks to Bill Rogers, W3UL for the use of the Severn Radio Contesters' AC3U callsign. Thanks also to Rowland Archer, K4XD for again serving as Contest Captain and Scheduling Guy. Rowland's enthusiasm is infectious. Congrats to our POS2 guys who enjoyed using their well-honed K3/RemoteRig set up. Loads of appreciations go to Paul-N4PD, for always being there to fix things. Many, many thanks go to John, W5ODJ for providing us with a top-notch Internet connection. Kudos to our "Rate Animals," Rick-N1RM in Reston, VA, and Eric-KJOD out there near Kansas City! Our far-flung guys included (for this 'test'): Tom-CX7TT in Uruguay (puts the Remote in "Remote") Eric-KJOD in Missouri, (five shifts on Saturday and rate-master) Tom-N9NC in New Hampshire, (our 40M beast) Rowland-K4XD (Mr. Motivator), Jim-W4TMO in North Carolina (Mr. Never Say Die), Bill-W3UL (six shifts plus fill-in!), John-K3TN in Maryland (rate goes up, up, up), Gary-NC4S (First timer, two shifts!), Bill-KJ4VTH (Mr. Sunday), Rick-N1RM (the rate animal), and Mike-W0YR in Virginia. We are proud to be the FIRST anywhere, Totally Remote Multi-Multi contest station. We're going to continue to improve. Thanks to CQMagazine and its continuing commitment to sponsoring these great contests. Thanks to all worldwide for the Qs, Mults and operating courtesy...**AC3U**. First licensed 3/4/2014...**AD0HL**. First licensed in July 2012...**AD0JA**. Licensed Dec. 18, 2012...**AE0EE**. 1st licensed May 15, 2012...**AE7DW**. 2013-09-19...**AF7EL**. Propagation was better than I expected. I could not run 500W on 80M because of some RF in the shack that I had not seen before. I'll have to deal with that soon. I was able to put in 26-hour operating and was able to use new homebuilt 10M 4-ele yagi as well. I managed to get 2 contacts into Kazakastan and Indonesia (a new country). Also had several contacts into Africa which is normally tough. Overall I managed 70 country prefixes over 430 total QSOs...**AG6AY**. As usual a fun local contest!...**A14QB**. PLENTY OF ACTIVITY. THIS IS THE BEST OF THE BEST...**KJ8O**. I was first licensed Sep 2013, and this was my first time participating in CQ WPX, and I had many memorable moments! I had plans to put up my tower and new K4YIO hex beam on the air, but Mother Nature had another idea. I worked with what I have: Yaesu FT-897, MFJ 949-E manual tuner, and my end-fed long wire and homebrew 40/80m dipole. I was surprised to work HV0A on 10m on my first call, took time to read the bio on QRZ.com of HZ1HZ (even though I tried to work her, I couldn't due to QRM), laughed when I saw the call for AG1RL show up on the cluster, and I have a list of QSL cards to send out. My farthest contact was VK5CE/P at 10,153 miles from my QTH, and I happened to work KT4ZB who is just a few miles from me. I encountered ops that seemed to want to only work stations with booming signals, and likewise worked stations who were patient (despite the conditions) and were determined to complete a valid exchange. Every contest, I learn something new, and I'm thankful that the committee takes the time to organize contests, and the sponsors who donate their time and resources to make it fun and rewarding. If anything, I've learned that it is useful to have a vanity callsign that's phonetically easier to say. 73 de KK4TXZ...**KK4TXZ**. "Everybody has a plan until they get punched in the face." Mike Tyson. This was my first big HP contest in several years and I was fortunate to be able to use W6HD's shack again. I was keeping up rates I hadn't seen in several years and everything was groovy. Then Sunday rolled around. Am I tired? Am I deaf? Do all the others know something I don't? Sunday was challenging, to say the least, but there was a little late action on 10. I had held off hoping to have a good domestic run to jack up the Q count and kooky mults, but it never really materialized. Either way, it was a lot of fun and I flogged John's station for all it was worth. Thanks again to all the casual contesters who come out and hand out Q's and new mults. I try to be extra patient with the slow-talkers and "Please copy-ers" when they are giving up their Sunday dipping their toes into this contesting thing. As always, thanks to John and Jane for again being gracious hosts. Paul Station: K3, Alpha 9500 Original Force 12 C31XR at 50', Mag240N at

50' and a dipole for 80 that probably wasn't worth the trouble to put up for only 19 Q's :-)...**KK6P**. RADIO IS A STOCK YAESU FT-817ND. MAXIMUM POWER OUTPUT WAS 4 WATTS...**KK7VL**. LICENSED 22 APRIL 2014...**KM4AML**. 06/23/2014...**KM4CPA**. 10/27/2014QSO: 21287 PH 2015-03-28 0004 KM4SLW 59 1 KP4BD 59 10 0...**KM4SLW**. Micro Expedition No. 27 Portable in the Park - White Rock Lake, Dallas, TX...**KM5VZ**. Lousy band conditions on the Upper Left Coast but still a lot of fun!...**KN7S**. My favorite contest! - It's wonderful to see the great activity and to say hi to so many friends! 73 Bob...**KQ2M**. Always nice to have a contest on to test a new linear - not bad 5 guys in BY land called me on 15 - first time that ever happened guess it works, hi hi! No increase in power just newer design from AL811H to AL11HD...**KS7T**. Ouch!...**KS9K**. DID IT ALL WITH 5 WATTS AND A LAWN MOWER BATTERY UNTIL MY TUNER DIED...**KT4CB**. 2.5 WATTS BURNING UP THE BANDS...**KX5U**. The Rules are far too complicated...**N0AJN**. 2013...**N0AXE**. I had fun...**N0QLT**. Super fun, as usual!...**N0ZC**. N1MM+ skipped serial number 156...**N1IA**. Spent just under 3 hours on air...**N4AAB**. Whoo-hoo! Great cndx, good ops, lots of QSO's. Still too many over-processed signals, but still fun. I enjoyed talking in my "robot voice" to those stations that had computer-generated serial numbers! T-T Omni VII, Alpha 87A, low wires. What a blast!...**N6HE**. Excellent conditions...**N6MI**. All contacts were made using a homebrew tri-band Fan and...**N6YG**. A new record for me! Wish I had not wasted 8 hours of potential operating time! A lot of DX still has LOUSEY AUDIO, and think that their callsign is "QRZ". Kenwood TS-950SD, Heil ProSet with HC-5 mic. element, and home brewed G5RV up 50 feet, running N-S at 6,053 feet elevation from Laramie County Wyoming. Apartment QTH. Thanks for the Q's...**N7MZW**. Too bad the conditions were not better for me. Maybe next year...**N7VZU**. A fun contest until Sunday. We were well ahead of last year after the first 24 hours. Sunday propagation reduced our rates and score considerably. Again-Again!...**N8BI**. First time entry in this contest was really fun...**N8MWK**. 227 contacts 177 mults 10:22...**N9UY**. Thanks for sponsoring the contest!...**N9WL**. Another great one. Tnx CQ Mag. 73, NC4MI...**NC4MI**. Had fun. See you all in May...**ND3R**. Operated from the W1KBN club station at Northeastern University...**NE1AR**. Managed to squeeze 11 hours of operation into a busy weekend. Conditions were excellent whenever I was on the air...**NE5D**. Kenwood TS-2000 Mutiband Vertical B&W folded Dipole...**NE9DX**. I had every intention of doing an all out effort but one of my broadcast transmitters had other plans. 30 minutes before

the contest started I had a transmitter fail and had to go the site to do repairs which kept me away for the first 90 minutes of the contest. Prime time on 15 meters. The same transmitter gave me problems again during the weekend so I was only able to operate about 27.5 hours. Conditions sucked on Sunday for the most part...**NF4A**.
